Our 3Juices are the richest in [Antioxidants](#) and [Xanthones](#). Pure Fruit's Mangosteen juice is made from the finest high-antioxidant mangosteen fruits. Our Juices are 100% naturally without added artificial flavors, sweeteners, or without any added sugars or preservatives. The shelf-life of each mangosteen antioxidant juice is at least 2 years.

The 3 Whole Pure Fruit Juices are 32 times higher in [Xanthones](#) and contain 56% more [Antioxidants](#) than its competing mangosteen juice on the market. We carry the best and purest mangosteen juice, goji-berries juice, and seabuck thorn juice. Each of our free radical fighting mangosteen [mango-xan](#), [goji-zen](#), or [seabuck-7](#) juices (4 liter boxes) are available for the most reasonable price in the Liquid Dietary Supplement Industry!

#### • General Juice Benefits

Each juice addresses a specific supporting purpose. For example, the [Mango-xan](#) juice is primarily supporting rejuvenation, immune system fortification, digestive system support, and is a natural energy drink. [Goji-Zen](#) is rich with Himalayan Goji Berries and other ingredients that primarily are good for the eyes and support kidney and liver healthy function. [Seabuck-7](#), the renowned multi-vitamin drink also supports kidney and liver health because it contains also Goji Berries. It is however primarily formulated to improve and support the blood circulatory system. All of the 3 juices have one big commonality. They all are super [antioxidants](#) that fight free radicals.

## 100% Money Back Guarantee - Quality Promise

We guarantee the quality of the product even to the extent of a 100% money back guarantee. This means, if a product is found to contain artificial flavors, sweeteners, or added sugar, and preservatives, a seal is broken, the product is bad for any reason and in any form, we will replace the product or give a 100% refund.

Please note, we are not refunding because the product may not have yielded the benefits a consumer was hoping for. Regardless of quality, there is never a guarantee possible. There are too many environmental variables. A pharmacy and your doctor won't guarantee the benefits of the prescribed medicine either. They will just prescribe a different one in the hopes that it will work better.
